

Mitex ENDURANCE

APPLICATIONS

- 🌐 Extrusion
- 🌐 Lamination
- 🌐 Heat transfer lamination
- 🌐 As Counter-, Lamination- and Coatingroller

FEATURES AND BENEFITS

- 🌐 Peak temperature resistance up to 155 °C
- 🌐 Designed for high machine speeds and high line pressure
- 🌐 Excellent mechanical properties such as tensile strength
- 🌐 Adhesive surface properties also suitable for processing TPO films, as well as TPE, PP, PE, PA, PVC, PES, PC-films
- 🌐 Available in various application-specific designs, e.g. antistatic, electrically and thermally conductive
- 🌐 Available in various surface finishes, e.g. polished, fine and specifically structured

NOTES

For other hardnesses or finishes, please contact our sales staff or our technical service.

This information and our technical advice – whether verbal, in writing or by way of trials – is given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control, and therefore, entirely your own responsibility. Our products are sold in accordance with our General Conditions of Sales and Delivery.
